LOOKING FOR KIDS PACKAGES ?

We recommend putting kids on the "FREE" Woodland Wi-Fi, so the Subscription Wi-Fi can distribute the network load between those needing Wi-Fi to work from "home" and have some fun while doing it; and those using it strictly for non-essential "Fun". That's not to say you can't stream or use our Wi-Fi for fun, as that's what you're here to do- relax and enjoy!
